

AQUA POOL & SPA PROS

2060 E Grand Ave, Lindenhurst, IL 60046 * 847-265-5280 * www.aquapoolspapros.com

Welcome to our 18th Edition of the Aqua Journal

Who's ready for the pool and spa season? I know we are!

The entire crew is back again this year and have been hard at work with pool and spa openings, equipment and liner replacements, cover repairs, sand changes and plenty more.

We don't call winter the off season anymore, there's way too much for us to do. It is now called the "other" season. It may not be as hectic as spring, summer and fall but it certainly keeps us busy. Kim and Karrol have been working to redesign our website and have done a great job. They have also been working on our Facebook page which will continue to keep our customers up to date with our Facebook only offers, discounts and sale information all year long. We can't wait for you to see our new Summerbrook line of outdoor kitchen islands and pergolas on display in our showroom! Summerbrook offers numerous designs and finishes so you can customize your own personal outdoor living space. All Summerbrook products will be discounted during our Annual Spring Sale. See you there!

Aqua Pool & Spa Pros has once again earned the Association of Pool & Spa Professionals Midwest Chapters Superior Service Award for 2016. We owe it all to our highly trained staff and our loyal customers who make it all worthwhile.

More updates regarding pools with high stabilizer levels.

Last year we discussed the fact that high stabilizer levels in pools can lead to numerous water issues. Most of the normal chlorine products that are added to pools have some stabilizer in them leading to high levels and unhealthy water. Our chemical manufacturer has come up with a new form of chlorine called **POOLIFE NST**. It's an extended release non-stabilized tablet. Stop by the store for more details on this exciting new chlorine.

\$300 ComEd Rebate for variable speed pumps.

Our Jandy variable speed pump is Energy Star certified and qualifies for a \$300 rebate from ComEd. It uses approximately 70% less energy than a standard pump. It runs at lower speeds when needed making it quieter and longer lasting as well. If you are in need of a new pool pump this year you may want to consider a Jandy variable speed model which will save you money every year.

Drowning Matters Every Day

Drowning events are real, tragic, frequently preventable and should be on everyone's mind who own a pool or spa. We encourage you to learn about layers of protection and use them diligently. Always remember that there is no substitute for parental supervision when children are near the swimming area.
